

Faithful is he, Inc.

In 1998 a corporation called Faithful Is He, Inc. was formed to be an umbrella under which we could minister both inside and outside of New Covenant Church. It is a fulfillment of a vision Ann and I have had for many years.

It includes:

1-Tape ministry (Started in 1974) We are on our third duplicator now after wearing out the first two. I'm sure we have made over 20 thousand tapes. We have seen many miracles through it.

2-Personal counseling through Life Enrichment (About 1700 candidates in the last 26 years)

3-Seminars in other churches both locally and abroad teaching Spiritual Warfare and Life Enrichment concepts.

4-Mission trips with teams working to minister not only to many orphans but also to several pastors and their spouses through Life Enrichment, deliverance and healing.

Life Enrichment is by the far most visible thing we have been involved in that I have mentioned.

Ann & I saw through this program a great need to help the body deal with critical issues that stem from hurts and bruises. Many people can never get to the place where they can reproduce themselves spiritually although they love the Lord and want to serve Him. It has helped me and many other people as well.

I have thought for many years that the church worldwide needs a good simple program to minister to their people. That was my desire when we did Spiritual Warfare Seminars in Suriname and Honduras. I left both places feeling we could have done more if we had prepared more.

We have been given the opportunity to improve on that through the circumstances that are before us now. Let me tell you of some details of what we have been given the opportunity to do in Valencia, Venezuela.

Many of you know Chuck Hall, a missionary we have been supporting for many years through the Foreign Mission Board. He heads up a ministry called World Indigenous Missions headquartered in Texas. One of the people that serves under him in Valencia, Venezuela, I happened to meet quite by accident as Ann and I visited a church in Hazlehurst, Ga. last year. He happened to be the speaker. His name is Jerry Morris along with his wife, Moik.

Many things happened that day that lead us to where we are now. After finding out we had done Spiritual Warfare Seminars in Central and South America he wanted to know more about them. You see, Jerry is from Valdosta, Ga. and went through Life Enrichment over twenty years ago and likes the program.

He asked me if we would consider in the future coming down there and teaching them. He said they need this desperately. I told him I had one problem. I need my manual translated into Spanish. He did not hesitate. He said I will have it done for you and then we can use it here and you can take a copy back with you to be used elsewhere. We have a trip planned for June 14th through 21st (2005) and he has promised me he would do his best to have a complete Manuel in Spanish ready for all twenty-eight Cell group leaders that will be there. As time permits he wants us and our teams to train as many people as possible while we are there. The following message gives you the vision he sees for this program.

As you can see we have a golden opportunity to start a program that could have a great impact on that nation. Needless to say we need your help.

We need a lot of prayer. The country where we are going is not known to be the safest place to be but I know where God guides He provides. There is a great need for Spanish Bibles, and last but not least there is a need for finances. This trip will be very expensive especially with tickets going up because of the rise in fuel costs. At this time we have eight people that have committed to go. It could cost as much as \$1500.00 each. We need all of these team members to do what I believe God has called us to do. Please just pray and ask the Lord if He would have you be a part of this.
